The concept of Gnostic Gospel of Eve in Christianity

Navigation: All concepts ... Starts with G ... Gn

The Gnostic Gospel of Eve is a significant text in Early Christianity that presents the concept of Jesus's omnipresence. It parallels the idea that Jesus is scattered throughout all things, highlighting his inherent connection to the universe. This text contributes to the broader understanding of Gnostic beliefs, focusing on the divine nature and presence of Jesus in various forms, reinforcing the idea that he is not confined but rather permeates all aspects of existence.

The below excerpts are indicatory and do represent direct quotations or translations. It is your responsibility to fact check each reference.

Christian concept of 'Gnostic Gospel of Eve'

Christianity | Books

Significance in Early Christian church and writers:

Early Christianity | Books

From: *Gospel of Thomas Commentary*

(1) This title refers to another Gnostic text that parallels the idea of Jesus's presence everywhere, emphasizing his scattered nature within all things.[1]

Early Christianity (also known as Early Church) refers to the period starting roughly in the 6th century BC up until 325 A.D. during which year the first council of Nicaea was convened. Popular literature includes the writings by the early Church Fathers which forms the basis of later Christian theology.
